StiQR

Helping your things make
their way back to you.

Lost keys, phone,
wallet, dog? Let us
show you how
StiQR can help your
stuff return to you.

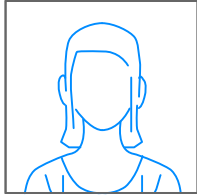

How it works

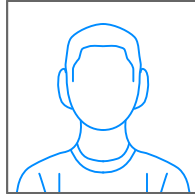

You create your StiQR
account with the best ways
to reach you and your

personal QR code comes as an extra durable and versatile sticker that you can stick on anything.

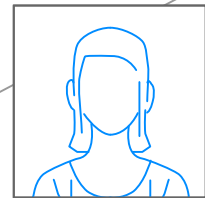

When someone finds the item you lost and scans the StiQR they will be taken to your profile and can contact you through the our safe and secure site.

"I had just changed my phone number and my dog ran off the other day, but the neighbor a few streets down was still able to contact me through StiQR."
- Sarah B

"I'm always leaving my wallet at the bar or some other place. I stuck a StiQR on it and it's been returned to me twice in the last two months!
- Charles A.

"I left my new phone on the bus last month and thank goodness for StiQR, some kind person scanned it and I was able to get it back. Good as new"
- Cecelia T
